Colour

. Method

Add GAGA, as it is, to the chosen product and mix thoroughly.
We recommend that you mix the product every now and then during application to avoid any product separation.
Proceed with the application as described in the technical specification sheet of the product to which you added GAGA.

Application cycle

Add GAGA to the final coat of the applied product.
Add one package of GAGA to 1l of product for a more marked effect, or to 2.5l product for a more delicate effect.

Warnings

Wash brushes and tools immediately after use, with water; do not dump the wash water on the ground or into groundwater.
Keep out of the reach of children.
Further information is given in the safety data sheet.

VOC Classification - Directive 2004/42/EC - Italian Legislative Decree 161/2006

Non-regulated product.

Specification

Refer to the specification of the product to which you added GAGA.
