

# TECHNICAL DATA SHEET

## TERRA VERDE BRENTONICO

### DESCRIPTION

It is a green earth from the Verona area. Processing includes purification, drying, and grinding with paddle mills. Sought after in the artistic field for its characteristic semi-transparency.

Composition	Ferrous and ferric silicates of potassium, manganese, aluminium plus iron oxides
Micro features	Large, rough, inhomogeneous particles
Granulometry	30/40 Micron
Origin	Verona/Italy
Color	Green
Covering power	5 (SATISFACTORY)
Light stability	6 (GOOD)
Moisture stability	6 (GOOD)
Stability in lime	6 (GOOD)
Chemical stability	6 (GOOD)
Indicated for use	INDOOR
Fields of use	Fresco, tempera, oil, encaustic

\*SCALE OF VALUE : from 1 (min) to 8 (max)
